开袋工序五合一

Five-in-one pocket welting process

20秒开一袋

20s/one pocket

五合一开袋，效率高

Five-in-one pocket welting, high efficiency

切-烫-折-缝-套工序五合一，缝切一体、自动翻折、电脑加固

Five-in-one process: cutting-ironing-folding-sewing-covering, integrated sewing and cutting, automatic folding, and computerized bartaking.

超强适应性，不挑面料不挑款

Super adaptable to different fabric or styles

面料覆盖率可达95%以上，轻薄轻弹通通适应；
花样可编辑，一种模具适配多种款式

The fabric coverage rate can reach more than 95%, and it can adapt to all thickness and Elasticity; the pattern can be edited, and one mold can adapt to multiple styles.

全自动开袋机

Automatic pocket welting machine

自动折边免烫免定位，缝切一体高效精准，
去技能不用熟练工。

Automatic folding without ironing and positioning, integrated sewing and cutting, efficient and accurate, no need skilled workers

传统开袋

Traditional pocket welting

工序繁杂，打刀口不精准，缝制左右边长短
不一口袋易扭曲、袋唇控制不精准。

The process is complicated, the cutting edge is not accurate, the sewing left and right sides are different in length, the pocket is easy to distort, and the bag lip is not accurate.

技术参数

机型 Model	花样储存容量 Storage capacity of patterns	针距 Needle gauge	压脚高度 Height of presser foot lifting	激光功率 Laser power	开袋尺寸 Size of pocket welting	最高转速 Max rpm
